This book is for informational purposes. Take the time to read or watch the reference material linked to or referred to in this book.

This book solely represents the author's opinion and research. It is not to be considered a complete expose of the methods and means by which Islam operates and is spread throughout the world today.

You are able to understand the world more clearly when you study a subject and read broadly to ensure your understanding is complete. Mainstream media in many western countries is owned and controlled by a very narrow group of large and powerful companies controlled by a small group of people. In the United States six large corporations own over 90% of all media. You get a very narrow and oftentimes erroneous understanding of world events from watching or listening to those controlled sources. In Europe, freedom of thought and expression have been curtailed and severely limited. In Europe today if you say or write the wrong thoughts you can be punished or arrested. European western civilization is slowly falling. Freedom and liberty are being eroded away.

Try not to be one of the "sheeple" in life. Read from a variety of sources and think about what you read and see. When you see censorship and attacks on those who express opinions not approved by the powerful elite that is a sign that truth is being hidden or suppressed. The powerful elite use censorship and threats and harm to maintain power and control. Truth is buried or hidden in those times.

You have free will. Use it. Think for yourself.

"Don't be afraid, for I am with you. Don't be discouraged, for I am your God. I will strengthen you and help you." ~ Isaiah 41:10

Introduction

This book provides an introduction to Islam. It is written for the non-Muslim, be that reader a political conservative, a political liberal, a Christian, a Jew, an agnostic or a non-religious person. This book is for those readers from a western culture such as the United States, Canada, Europe, South America, Australia or New Zealand. This book explains what Islam is and how it works. The book is written in a style to make it easy for all to understand.

You need to understand what Islam is and represents. Islam is a complete way of life and a complete law for mankind on Earth. That is Islam. It is a very powerful political ideology and cultural doctrine. A Muslim is a follower of Islam.

Followers of a political ideology and cultural doctrine will often dress to show their political identity or cultural affiliation. They wear their uniform, in a manner. Historically, followers of a particular political ideology or cultural doctrine might wear arm bands or head wear, or clothes of a particular color or design to show their political or cultural affiliation. Think about the uniforms of the German Nazi's or the KKK in the United States. The uniforms of political and cultural affiliation vary. You often will see people wearing their uniforms that identify them as followers of a particular political ideology or cultural doctrine.

Islam is a complete way of life. It is a complete political ideology, law and social doctrine. An ideology is a system of ideas that form the basis of economic or political policy. A doctrine is a set of beliefs held and taught by a group. Islam is a complete political ideology, cultural doctrine and law. You need to understand that about Islam. It is a complete law, a complete way of life. A Muslim submits to that political ideology and cultural doctrine.

Islam is vastly more than a narrow concept of a religious group or religious practice. Islam is a complete social, legal, political and cultural way of life. There is no higher law or permissible way of life than that dictated by Islam. That is very important to understand. Muslims submit to a political ideology and cultural doctrine that describes a complete belief system and way of life.

As a complete way of life Islam is not just something you do for a few hours on a Sunday morning and then go about your life living under some other higher set of laws and rules that are not in accord with Islam. There is no higher law than Islam. The US Constitution is not in accord with Islamic doctrine. In fact, the freedoms and liberties granted by the US Constitution often stand in direct contrast to Islamic teachings and thought. A Muslim cannot embrace the US Constitution as the right supreme law and guiding doctrine. Only the law of Islam is seen as proper: Sharia Law.

Islam is complete as a cultural doctrine, political ideology, legal system and guide to live every moment. Western law and cultural practice are often not in accord with Islam. The freedoms and liberties that are foundational to many western cultures stand in direct opposition to Islamic law and cultural doctrine. Deep conflicts exist between Islam and western cultural practices and beliefs.

You need to understand what it means to submit to Islam and to follow that calling. Each member of the body of Islam – the Ummah - is called to prayer and submission five times a day, every day.

The act of submission to Islam five times a day every day is quite powerful psychologically. Submission and obedience to the ideology and doctrine of Islam are drilled into the heart and mind of each Muslim. The Islamic call to submission five times a day, every day, is a very effective method to dominate the hearts and minds of the followers of Islam.

Think about the effect of reciting words of belief and submission to a doctrine five times a day, every day. That is very powerful. Islam exerts a very strong control over its followers. Following the political ideology and cultural doctrine of Islam is deeply ingrained in each Muslim and reinforced five times a day, each day. You need to understand what that political ideology and cultural doctrine are. We will show that to you in this book.

The call to prayer and submission five times a day is quite powerful. People are profoundly affected by that act. Islamic political ideology is complete and strongly compelling.

There was an experiment performed in the early 1960's on a group of people who were directed to administer electric shocks to a stranger based upon directions from a person seen to be rightly in authority. These everyday people did indeed follow the directions of the perceived person of authority and administered increasingly severe electric shocks to strangers even though they could hear the grunts and moans of pain emanating from those strangers. 65% of people would follow directions and administer ever more painful electrical shocks to strangers as directed by the person of authority. That is the Milgram experiment. You can learn more about it here: [The Milgram Experiment](#) The point of this is to help you understand that most people will do things to other human beings that they know are quite painful and damaging when directed to do so by someone they perceive to be rightly in a position of authority. That is an important psychological characteristic of most human beings. That characteristic can be exploited. Submission to Islam is complete. It is reinforced five times a day. The human characteristic to submit to perceived authority is exploited strongly by Islamic political ideology and cultural doctrine and practice. It is one characteristic of human populations that is used to hold Islam together and to spread Islam throughout the world regardless of the pain, suffering and death it invokes. Keep that in mind as you read on.

“No matter what anybody tells you, words and ideas can change the world.” – John Keating.

It is important for you to understand what the words and ideas of Islam are. Islam comes with and is a detailed and compelling political ideology and cultural doctrine. Islam describes a complete way of life. Islam stands in direct opposition to many of the freedoms and liberties embraced by the US Constitution and other western cultural value systems and laws. You will often read that Muslim communities call for Sharia law and Sharia courts as they grow in population inside a non-Muslim country. That is because Islam is a complete law and a complete way of life that often stands in conflict with the freedoms, liberties and laws of western cultures.

Islam is a powerful and complete political ideology. To submit to Islam is to submit to that political ideology.

This book describes the beliefs and callings of Islam in clear language to make it easy for you to understand what Islam is all about and how it works. Many people and cultures of all races and ethnicities have fallen before Islam.

To call Islam a religion is much too narrow. Islam is vastly more than that. Islam is a cultural doctrine and political ideology. Islam is a way of life. Imagine the most powerful and all-encompassing political party and doctrine you can... Islam is that and more. Islam is not a narrow religious practice separate from the law and culture of the land. Islam is a complete law and cultural doctrine. Islam is a complete way of life. Islam is All.

To submit to Islam is to submit to a dominating political ideology. There is no higher power, no other law, no other political system higher than Islam. Islam is All. You need to understand what Islam calls upon all members of the body of Islam to do.

If you are not of the body of Islam – the Ummah - you are seen as impure and unholy, and viewed as a lesser being by members of the body of Islam and by the doctrine of Islam. Many Muslims are taught in their mosques that the Christian and Jew are less than animals and are a lower life form. The words of the Koran are quite harsh in describing the non-believer. This book will describe the teachings and callings of Islam. Imagine what a person will do or tolerate being done to others who they are taught to see as being no better than animals.

Watch This: [Islam Is Not Peaceful](#)

There are members of political parties in the United States who feel very strongly about their political ideology and beliefs. Often, they will shun their fellow countrymen who do not share their political ideology or body of belief. Neither the Republican Party, the Democratic Party, the Green Party or the Libertarian Party in the United States follows a doctrine that calls on members of their body to “harass and beleaguer” and to “kill and subdue” those who do not follow their political ideology and beliefs. Such a calling would create deep division within a nation and society and could bring about civil war. Such an explicit call to violence, intimidation and mayhem would be seen as criminal and reprehensible. Rightly so, such a calling is criminal and reprehensible. Keep that in mind as you read on. Islam calls all members of its body to war against the non-believer. Islam

is a very powerful political ideology and belief system that is much more than a narrow spiritual or religious practice. You need to understand that to understand Islam.

There is no separation of church and state in Islam. There is only Islam. Separation of church and state is a relatively recent development in the history of western culture. That separation of church and state does not exist within Islam. There is only Islam.

Islam is the supreme law, there is no other. Islam is a complete political and cultural doctrine. You submit to Islam. You submit under the Sword of Islam. Islam is not an outstretched hand to lift people up to experience the freedom, personal liberties, joy and wonders of this beautiful world. Islam is delivered under the sword of submission. It is not a doctrine of freedom and liberty. It is a doctrine of submission with brutal consequence for those who stray. The penalty for any Muslim who desires to leave Islam is death. That is Islam.

Watch This: [Penalty for Leaving Islam](#)

Can you imagine the Methodist, or Lutheran, or Baptist, or Republican body having doctrine that called for the murder of any member who chose to leave? Can you imagine the Presbyterian, or Unitarian, or Catholic or Libertarian body having doctrine that called for the murder of anyone who drew a cartoon of that founder or strongly questioned the words or the life history of the party founder? Islamic doctrine has that calling, and more. Draw a cartoon of Muhammed, the founder of Islam, and many Muslims think it is quite right that you should be killed for insulting the Prophet. That is Islam. That belief is not compatible with western culture or freedom of thought and inquiry.

Watch This: [Beheading for Cartoons](#)

Many non-Muslims are confused about Islam. Many people from the western cultures of Europe, the US, Australia and elsewhere think Islam is similar to being a Methodist or Lutheran or Catholic. It is not. That is wrong. Islam is vastly more than a spiritual belief or religious practice separate from the law and culture of the land. Islam is and defines the law and the culture of the land. There is no separation of church and state in Islam. There is only Islam.

Islam is a complete way of life, a complete political ideology and cultural doctrine and a complete law. Islam does not follow the teachings of the Christian Bible and does not embrace the liberties and freedoms enumerated by the US Constitution. Islam often stands in direct opposition to those two works.

There is no separation of church and state in Islam. There is only Islam. The body of Islam is called to war against all non-believers. The body of Islam is called to “*harass and beleaguer*” the non-believer, and to subdue the non-believer. Many great peoples and cultures have fallen to Islam because they did not recognize what they were facing in Islam. Islam is a very aggressive and expansionary political ideology. It is brutal in its calling and creates intolerant, oppressive societies much as National Socialism did in 1930’s Germany.

Many non-Muslim people want to believe the doctrine of Islam is peaceful. It is not. The body of Islam is called to war against all non-Muslims. Many Muslims are taught in their mosques that Christians and Jews are less than animals, as taught by the Koran. It is easier to kill and attack animals than your fellow man. Remember the Milgram experiment on administering electric shocks? Imagine the results if the stranger receiving the shocks was perceived as being impure, unholy or no better than an animal.

Personal freedom and liberty are not part of Islam. Islam is spread by the sword and held together by submission backed by threat, intimidation, murder and mayhem. That is Islam. It is not compatible with western culture or democracy. You can see that time and time again around the world. Muslims do not misunderstand Islam when they attack the non-believer. They understand the doctrine of Islam perfectly well. They are following that doctrine.

Watch This: [Murdered for Burning Koran](#)

To help you more easily understand Islam this book is intentionally short. It is meant to be easy to read. The desire is to ensure you understand Islam and see it clearly for what it is and how it works. The ideology and doctrine of Islam creates madness in the people and societies it infects.

Chapter 1 – How Does Islam Work?

The Koran – or Quran – is a book that is understood through abrogation. To abrogate means to repeal or revoke something to make it null and void. That is an extremely important part of Islam and the Koran.

There are 110 or so early verses in the Koran that read as peaceful and helpful toward your fellow man. When those early verses in the Koran are read, they seem quite similar to verses from the Holy Bible. But all of those verses are abrogated by later verses in the Koran. Those later verses that abrogate the peaceful early verses instead call the body of Islam to war against the non-Muslim. All of the members of the body of Islam are called to **harass and beleaguer** the non-Muslim and to kill and subdue the non-Muslim. That is the living doctrine of Islam. The early verses that read as peaceful are all abrogated. They are repealed and revoked by the later verses that contradict those early verses and instead call for violence and war.

In the Koran the practice and power of abrogation works by having later verses that contradict or are more strongly stated than earlier verses abrogate those earlier verses. All 110 or so of the earlier verses in the Koran that seem peaceful or helpful of your fellow man are abrogated by later verses. Those later verses call the body of Islam to war against the non-Muslim. Every member of the body of Islam is called to subdue the non-Muslim and to harass and beleaguer the non-Muslim. That is a tactic of guerrilla warfare. Islam is at war against all non-believers. You need to understand that. **Jihadists who kill non-believers are not confused and they are not radical. They are following the doctrine of Islam.**

There is no radical Islam, there is only Islam. Islam calls all members of the body of Islam to harass and subdue the non-believer. That is Islam.

All members of the body of Islam are called to war to spread Islam and to subdue and subjugate the non-Muslim people of the world. The doctrine of Islam is a call to violence and war.

Islam is a relentless call to all members of the body to harass and beleaguer the non-Muslim people, to defeat them and subdue them. The non-Muslim is given the choice to convert to Islam, or pay a tax and live as a second-class subject or to die. That is it. Those are the three choices for the non-Muslim. That is the doctrine of Islam.

Islam is a powerful political and cultural doctrine and ideology. It is a call to war against all non-Muslims. To lie to a non-Muslim in order to make a path for Islam and to further Islam is permitted and righteous in Islam. If you are a non-Muslim, you are not entitled to the truth from a member of the body of Islam who is seeking to strengthen or further the cause of Islam. You need to understand that. Do not be deceived. You need to see and understand Islam for what it is.

Watch This: [Allah Is a Gangster Says Ex-Muslim](#)

Some small number of Muslims will take up the sword – the gun or explosives – and go forth as warriors of Islam... as Jihadist. Many more will take up the pen or enter the media with words to argue and cajole for Islam. They work to subdue and quiet the opponents of Islam to make a path and a way forward for Islam. Other members of the body of Islam provide the aid and comfort and support to the body and community of Islam to enable the warriors to move forth.

Islam as a body, as a doctrine, is at war. That is Islam. All members of the body of Islam are called to war and are at war with the non-Muslim. This is the army of Islam. As in any Army there are cooks, engineers, doctors, nurses, fire fighters, lawyers, clerics, storekeepers and then the smaller few who are the infantrymen who carry the arms and fire the weapons. In an Army of most any nation of today there might be one warfighter for every seven to ten others who perform supporting roles. Just because you meet the baker or nurse does not mean the Army does not exist. The army of Islam exists and is called to kill and subdue the non-Muslim. That is the doctrine of Islam. All members of the body of Islam are called to war against the non-Muslim. Each member of the body of Islam plays a role. **To support Islam is to support the doctrine and calling of Islam.**

There are no radical Islamists. **There is no radical Islam. There is only Islam.** To say radical Islam is some aberration of Islam is to blind yourself to the doctrine and ideology of Islam. All members of the body of Islam are called to harass and subdue the non-Muslim and to defeat them.

The followers of Islam are not lost or confused. The jihadists who are the fighters and all of those who attack and kill in the name of Islam are acting in accord with the doctrine. The kid or the man or the woman who takes up arms or explosives and kills non-Muslims is not radical. They are not confused. They are following the calling – the ideology and doctrine – of Islam. You need to understand that to understand Islam.

The warriors of Islam come from within the body of Islam. The larger the body, the more Jihadist warriors will come forth. All members of the body of Islam are called to war against the non-believers by the doctrine of Islam.

Read This: [The Deception of Islam](#)

The young man who takes up arms and fights under the flag of Islam is no more radical than the kid in your neighborhood who joins the Army or Marine Corps. There is no radical Islam. There is only Islam.

There is no radical Islam. There is only Islam.

Chapter 2 – A Complete Way of Life

Islam is a complete way of life. It is a powerful and complete political and cultural doctrine and ideology. Islam cannot hide behind the tree of religion... it is vastly more than that. There is one law, one belief and one life under Islam. All must submit.

All non-Muslims should see Islam for the political and cultural doctrine that it is. Do not yield an inch to the harassment and beleaguering actions of the members of that political movement and cultural body. Islam is a brutal cultural doctrine and political ideology not unlike being a member of the Baathist Party in 1980's Iraq or the National Socialist Party in 1930's Germany.

Islam calls on its members to do horrible and brutal things to spread its dominion over all men. Muslims feel compelled to these acts of mayhem, threat, harassment and murder by the doctrine of Islam. That is similar to the way so many Germans felt compelled by Nazi doctrine to abuse and kill Jews, Gypsies and Communist who they saw as somehow impure and of lower life. Muslims are taught today to see the infidel that way too. The infidel is anyone who is not a Muslim.

Watch This: [Islam and Unbelievers](#)

For many non-Muslims, Islam in western culture is seen as a criminal doctrine. It is a political ideology that calls for and delivers violence to subjugate and subdue all non-believers. A Muslim following the teachings of Islam cannot have non-Muslim friends. That is forbidden. Islam's call for harassment and violence against the non-believer should be grounds for it to be outlawed in western civilizations.

Read This: [A Religion of Violence](#)

Every non-Muslim should see Islam for the political ideology and cultural doctrine that it is. It should never be allowed to hide behind the tree of religion. Islam is vastly more than that. Islam is a complete cultural and political way of life. Islam is a powerful and complete political ideology and law. Islam does not embrace the values of democracy or western civilization. Islam stands in opposition to western cultural values. Islam in western cultures creates conflict and chaos. The larger the body of Islam, the more violence and chaos ensues.

Watch This: [The Islamization of Belgium](#)

For a Muslim, there is no supreme law above the doctrine of Islam. Many Muslims can never recognize the US Constitution as the rightful supreme law of the land nor recognize the freedoms and liberties embraced by non-Muslims because those freedoms and liberties are not in accord with Islam.

Watch This: [US Constitution and Muslims](#)

There is a deep-rooted and fundamental clash of cultures, political systems and ways of life between Muslims and all non-Muslims. So much chaos is created in this clash as Europe is only at the early stages of knowing. In the year 2016 and for many years prior European countries have their Army deployed on their own streets, in their own cities, to protect them from what is to come and what must come as the body of Islam grows in Europe.

Watch This: [Islam in Europe](#)

It is suggested by many who live in countries still safe from the relentless press of Islam that we should pity the Europeans for being the blind fools they appear to be. European people in many cases cannot even diagnose the problem or see the Islamic doctrine and ideology that is overwhelming their non-Muslim culture and people. That is sad and tragic. The political leadership in Europe is betraying its own people and culture. Chaos and disorder, and a reduced quality of life, are the result.

For those who understand the power structure of this world, many suggest that the Global Elite who desire to create a borderless world that they few will control and dominate love Islam because it is the perfect tool to create chaos and submission. That chaos is needed to bring in the new order within the Elites vision of a borderless New World. First, the Elites create chaos. From that chaos flows the loss of liberty and freedom for the people in order to restore order. That surrender of freedoms and liberty is foundational for creating the borderless New World Order controlled by the powerful Elite.

Islam is viewed as a perfect ideology and tool to create the discord and chaos in western cultures needed to usher in the borderless New World Order. If you are not aware of that undertaking you should listen for talk from global leaders about the borderless global world to come. Those globalist initiatives are seen in trade

deals that dissolve the laws of nation states and subject the people to unelected global bodies. You can see that structure in the Trans Pacific Partnership deal and related similar structures that were pushed forward around the globe. Those efforts to open borders and create unelected, global bodies that rule the people and the land are happening now.

For those who are just beginning to understand Islam and globalist world politics, many might hope this will all go away somehow or hope this is not really happening. That is a “head in the sand” response to fear. These events are real. Borders are being opened, mass migration into western nations is happening, and the cultural and political conflicts that create chaos are being nurtured. Islam is real, as is its political doctrine and ideology. You need to be clear in your understanding of Islam and how it works. Islam is quite powerful as a political ideology and cultural doctrine. It is not peaceful. Islam is aggressive and unforgiving in its treatment of the non-believer.

The truth of Islam is being hidden from many non-Muslim people. Islam is a truly powerful political ideology and cultural doctrine. Islam is a shameful thing for any person to be a part of or to support. You can't be a "good Nazi". Shame on those who choose or follow the terrible path of Islam. Shame. People should be freed from submission to Islam.

Islam is a beat-down of the human spirit and terrible in its call to violence, war, murder and mayhem. You need to clearly see and understand Islam for what it is and how it works. You need to understand how Islam is being used by the powerful Elite around the world today. Europe is under attack.

Many Muslim women dress to show their affiliation by wearing a head covering or complete body covering called the Hijab. Many Muslim women are forced to dress this way. Islam harshly penalizes woman who do not conform such as by a whipping or far worse. They will be attacked or punished. This is not freedom and is not peaceful. It is part of the beat-down delivered by Islam. Woman in many Islamic countries cannot go outside without dressing this way...

Hard Truths About Islam

Here are truths that many people from Western non-Muslim cultures do not understand or cannot believe. In religious text, Lucifer often comes to man as the Angel of Light. He presents himself as the Deceiver. This is how the spirit, Allah, presented himself to Muhammad, the founder of Islam. You may think this silly, the description of a spiritual entity as the angel of light might seem quaint or faintly amusing to you. Perhaps you do not believe in angels, spirit or any such encounter described by the Koran. You can't imagine that such words could mean much. Stop here and think. Words are powerful and can create nations and cultures. Words can powerfully move the hearts and minds of man.

You need to think about this. Hundreds of millions of people on Earth do believe in the words of the Koran, many with all their heart. Many tens of millions will quite willingly kill or die in furtherance of their Islamic belief. Think clearly about that. It is important you understand the power of the words, what those words call for, and the doctrine that the believers of Islam are following.

All members of the body of Islam are called to war against the non-believer. Those words matter. Words move people to action, informing their ideas, hopes, dreams and actions. The words of Islam are powerful and clear in their calling to every member of the body of Islam.

Read This: [Visited by a Demon](#)

There is no radical Islam, there is only Islam.

Watch This: [Jihadist Next Door](#)

Islam is very powerful. Islam calls on all members of the body to kill and subdue the non-believer. Islam is a complete way of life. There is no happy compromise within Islam for dealing with a non-believer. Violence is to be used against Jews and Christians unless they are willing to pay a special tax and live in subjection to Muslims as second-class citizens. For Jews and Christians, the choice is simple: convert, die, or live in subjection. That is Islam.

The effect of the Koran on man is that of "the Satanic Verses" as penned so many years ago by Salam Rushdie. The doctrine and ideology of Islam once understood seem for many to indeed be the well-crafted word of Lucifer. Islam as a doctrine and ideology is a beat-down of the human spirit and brings misery and turmoil to the land.

Who is Allah? Are Allah and the Christian God the same? The answer is **No**.

Read This: [Allah Is Lucifer](#)

Watch This: [God and Allah](#)

Read This: [Not the Same God](#)

So many great cultures and many millions of great people have been conquered and fallen to Islam. They need to be freed. They need to have a way to leave Islam to live lives of joy, productivity and freedom.

Bad doctrine and a terrible political ideology need to be confronted by every free person. Try to be courageous in this. See Islam for what it is – do not be deceived - and work to free the people conquered by the sword of Islam.

Just as it was not OK to support National Socialism in 1930's Germany it is not OK to support Islam today. The doctrine and ideology of Islam must be confronted and stopped. The people of Islam must be freed to live productive, loving and full lives. Islam is not OK. The political ideology and cultural doctrine of National Socialism in 1930's Germany was not OK.

Chapter 3 – Islam is Submission

Islam is submission. It is a deep corruption of Judeo-Christian teachings. Islam relies upon threat, intimidation and violence without which it would fall apart. Notice the death threats and violence directed toward all who question or lampoon Muhammed and Islam.

Watch This: [The Muhammad Cartoons](#)

Watch This: [Cartoon Protests London](#)

Islam is not strong enough to be examined in this way. It cannot be questioned because that questioning shows Islam for the beat-down and misery inducing doctrine that it is. Islam can't be questioned or ridiculed or parodied because that questioning and examination breaks the chains and melts the sword that holds so many people under its command.

Satire, parody and comedy in questioning or examining Muhammad are forbidden by Islamic doctrine. The cult would fall apart if Muhammed could freely be examined, parodied, or made an object of satire or comedy. Islam would fall apart. That is because the submission by man to Islam is based on threat and violence. It is spread by the Sword and intimidation. To laugh at Islam is to lessen the feeling of the threat Islam uses to survive. Laughter toward Islam breaks the spell.

There is little freedom of speech or thought in Islam... there is only submission. Barbaric acts to punish and kill non-believers and those who stray are woven into the fabric of Islam. Islam is a cult.... a vicious, relentless cult. Jihadists who kill and maim in the name of Islam follow and understand its message perfectly well.

Watch This: [Muslims View of Jews](#)

To free the people subject to Islam requires standing up to the threats and violence that hold it together. Satire, parody and comedic questioning break the chains of those enslaved by Islam. Laughter lessens fear. To free those people Islam must be satirized, questioned, parodied and held up to the light of truth. Show it for the cult it is. Show Muhammed for the person he was. There is nothing peaceful about the doctrine of Islam or about the life of its founder Muhammed. Islam is submission, backed by violence, murder and threat.

The people under Islam are being held down and held back from the freedoms, liberties and joys they should experience in life. There are many great people and cultures that have fallen to Islam. A doctrine that calls its body to violence, murder, mayhem and intimidation against non-Muslims should be seen as a criminal doctrine by western standards of civilization.

Watch This: [Islamic Invasion of Europe](#)

No non-Muslim should alter their standards or culture due to the pressure of Muslims. Non-Muslims should encourage all Muslims to free themselves from the doctrine and ideology of Islam that calls them to war and submission to such a brutal ideology.

There are many great and capable people of the world who have fallen under the conquests of Islam. They should be freed from Islam to live productively and to enjoy life's wonderful freedoms and liberties.

Chapter 4 – Islam Today

Islam is a powerful and complete political and cultural doctrine. There is no separation of church and state in Islam, there is only Islam. Islam is the only law. It does not recognize the liberty and freedoms spelled out in the US Constitution... freedom of speech, freedom of thought, freedom of expression, freedom of association, or freedom of religion. Those ideas do not exist within Islam. Islam is not democracy nor personal freedom.

Watch This: [Islam and Democracy](#)

It is the sword of Islam that calls for complete submission to the doctrine of Islam, nothing less. Islam calls all members of the body to **harass and beleaguer** the non-believer and to kill the Pagan. All members of the body of Islam are called to war against the non-believer. Some few members of the body of Islam take up rifles and explosives, others take up the pen to quiet and defeat the enemies of Islam, while others provide the aide, comfort and support to strengthen the body so the warriors of Islam can go forth.

Jihadists are not radical Islamist. There is only Islam. Jihad is Islam. To fight in the name of Islam it is no more radical than a young person joining and fighting for the US Marine Corps. There is no radical Islam. There is only Islam.

Islam is a political and cultural doctrine that is not compatible with western culture. Islam is not a "religion" such as being a Lutheran or Methodist or Catholic. That is a foolish misunderstanding of Islam. Islam is vastly more than that. Islam is a complete political and cultural doctrine, law and way of life. There is no law other than Islam... there is no acceptable culture or way of life other than Islam. There is no separation of church and state, there is only Islam. Many westerners do not understand what Islam is and how powerful and complete it is as a way of life.

The body of Islam is called to war against all non-believers and is at war. There is no radical Islam, there is only Islam.

The Koran is understood through abrogation. Later verses that contradict earlier verses abrogate those earlier verses. That is how the Koran is understood. All the earlier verses of the Koran that read as peaceful and compassionate (about 110+

verses in total) are abrogated by later verses that call for war, harassment of the non-believer and murder of the infidel.

You submit to Islam. Islam is brutal, it is not the outstretched hand to lift you up to know and enjoy the freedoms, beauty and love of this wonderful world, but rather it is the sword of Islam that subdues by threat, intimidation, mayhem and murder. It is a murderous beat-down of the human spirit. That is Islam.

There is no radical Islam, there is only Islam. There is no law above Islam, there is only Islam. Submit.

The people who follow Islam are in a terrible cult by western standards. It is a despicable doctrine and a terrible cult. Shameful. See and know Islam for the political and cultural doctrine it is.

Using Islam as a Weapon

The really terrible, despicable act is the Globalist Elite instrumentalizing Islam as a weapon of war. That is easy enough to do and it is being done around the world. The massive migration of Muslim people into Europe that began in 2015 and continues is creating chaos within those nations. That will get worse over the years to come as the body of Islam grows and strengthens there. Islam is not compatible with western culture. Social and cultural conflict and strife will grow within Europe. This is by design.

This is Islam:

1. [Girls Burned Alive in Iron Cage](#)

Watch these videos and listen to the message. This is Islam. This is what those who operate under the doctrine of Islam bring: this mental illness, this violence, this insanity. This is happening today, not a thousand years ago.

Watch This: [Islam in America](#)

Islam operates as a brutal, murderous cult. The followers of Islam support this and are a part of this. Islam is a cult held together by threat, intimidation, murder and violence. That is what is woven into Islam and holds it together. Islam is a brutal and powerful political ideology that requires complete submission to a brutal, shameful cult held together by threat, violence and murder. It is not compatible with western cultural values or western law.

Islam should be outlawed in all western cultures as a crime. The doctrine should be held up to the full light of examination showing it to be a criminal doctrine for its open calls to violence, murder, threats and intimidation. It creates madness in its followers much as did Nazi doctrine in 1930's Germany.

Watch This: [Islam Calls for Murder](#)

Islam must be lampooned, parodied, satirized and questioned repeatedly without flinching. Islam holds many otherwise great and good people in a cult that does not permit freedom of thought, free speech, or questioning of the cult figure Mohammed. Islam is a beat-down, a spiritual extortion and an offense to the human spirit.

Islam is a cult. It should be opposed at every turn. Islam must be held up to the light of examination showing it for the miserable beat-down of the human spirit that it is.

Chapter 5 – A Political Ideology and Doctrine

Islam is a complete way of life as a political and cultural doctrine and ideology. Islam cannot hide itself behind the tree of religion... it is vastly more than that. There is one law and one life under Islam. There is only Islam. All must submit.

Every free person should see Islam for the political and cultural doctrine that it is and not yield an inch to the harassment and beleaguering actions of the members of the political movement and cultural body that is Islam.

Islam is a brutal cultural doctrine and political ideology with its members akin to members of the National Socialist Party in 1930's Germany. The doctrine and ideology of Islam functions more in accord with 1930's Nazi Germany techniques than it does with any religious doctrine or belief.

Around the world, the Imans and leaders of Islam call on its members to do horrible things to spread Islamic dominion over all men. Muslims feel compelled to support or commit acts of murder, threat, harassment and mayhem just as many Germans felt compelled by Nazi doctrine to abuse and kill Jews, Gypsies and Communist who were all seen then as somehow impure and of lower life. Muslims are taught today to see the infidel the same way. You are an Infidel if you do not submit to Islam.

Islam in western culture is a criminal doctrine. Islam's calls for harassment and violence toward the non-believer should be grounds for it to be sued in court and outlawed in western civilizations. All should see Islam for the political/cultural doctrine that it is. It should never be allowed to hide itself behind the tree of religion. Islam is so much more than that. Islam is a complete cultural and political way of life. There is no separation of church and state in Islam. There is only Islam.

There is no law other than Islam. A Muslim can never recognize the United States Constitution as the right supreme law of the land or accept the freedoms and liberties American citizens embrace under the Constitution as those are not in accord with Islam. A Muslim must call for Sharia law and they do. This is a clash of cultures and political systems and ways of life. So much chaos is created in this clash as Europe is only at the very beginning stages of knowing. European countries have their Army deployed on their streets to protect them – the non-

Muslims - from what is to come and what must come as the body of Islam grows in Europe.

The Globalist Elite love Islam because it is the perfect tool to create chaos and submission within the Globalist Elites vision of a borderless New World. With such a vision guiding so many politically and financially powerful Elites around the world, the world really is facing tumultuous times ahead.

For the non-Muslim westerner many today find themselves with Globalist Elite on the left and Islam on the right to squeeze freedom and joy from their lives. Quite the battle it seems is shaping up. It is a choice: submit or resist.

Most people of the world can't see Islam coming. Many are not permitted to understand Islam by their leadership, while others choose to be "willfully ignorant".

Watch This: [New World Order Deception](#)

When you are afraid, sticking your head in the sand is not a solution. Each of you must find the courage to act. Your liberties and freedoms and joy in life are at stake. Choose your path. Be brave.

It is a shameful thing for any person to be a part of Islam or to support the doctrine and ideology of Islam. You can't be a "good Nazi". Shame on each person who supports Islam. Shame.

Say "No" to Islam. If you are a Muslim, use your Free Will to walk away from Islam.

If you are a Muslim and you have the opportunity to live a life free from the Sword and Submission to Islam, you can and should walk away. Regain your life and freedom in this world. Live a great, productive life in freedom and joy. Choose freedom and joy, not murder and mayhem.

It is not OK to provide aid and comfort and support to the body of Islam. Just because you do not pull the trigger or thrust the knife to kill the non-Muslim does not exonerate you from the violence. It is not OK to support Islam or to provide strength to the body of Islam. Walk away to freedom and liberty. Leave Islam. Use your Free Will.

Chapter 6 – Global Conquest and War

This chapter starts with a review of debates related to defense and warfare from a United States military and nation-state perspective. It segues into a look at the manipulation of Islam by the worst forces loose in the global arena today.

There are ongoing debates about the size of the US Navy in terms of the number of ships. The US Navy is getting smaller by number of ships. But the point of interest really is the ability to project power. How powerful is the weaponry of today's Navy in comparison to 20 years ago or 50 years ago?

Weapon platforms such as cruise missiles and other related missile and unmanned technology have become much more precise, smaller in size and much more powerful over time. The weapons of today can deliver very powerful explosive and destructive force with great accuracy. With these improved weapons a Navy doesn't need to bombard a place with the guns of 50 ships in hopes they will hit the enemy targets. Today the military can see those targets quite clearly from the air and space and can send in extremely powerful weapons that can hit and destroy those targets. A powerful military doesn't need 50 ships lobbing in shells when they can now precisely deliver one or two missiles through the front door.

The question is not how many ships. Ships are extremely expensive to build and operate. And they are increasingly easy to sink. Why put billions of dollars into a few big steel ships today? There are better ways to get more bang for the buck.

The other extremely important development over the past decades is weapons in space. The satellites and space borne platforms are amazing technology that can deliver quite powerful destructive force very quickly and without warning. Those space borne platforms can be thought of as lifting a part of the US Navy into the skies.

The space-based platforms project power around the globe. They are there all the time, just watching and waiting. Big steel ships take days or weeks to get within range of targets. Those ships are easy to see coming. Space based platforms take hours or minutes to get over a target. Those space-based platforms are

increasingly capable of delivering quite deadly destructive force on any target, anywhere. How about that. So, if you were thinking about where to spend money, would you build more big steel ships that are extremely expensive to build and operate and easy to sink, or would you focus more and more resources on air power(unmanned), missile technology and space-based systems?

Over the past couple of decades tremendous and amazing developments have taken place in directed energy weapon technology. Those systems are getting more powerful and more precise. They can reside on space borne platforms. To understand what is coming, and is already here...

Look at this: [Directed-energy Weapons](#)

There is a very beautiful battleship in Norfolk, VA. If you drive by it, you might think what a nice-looking battleship it is. But as a weapon system it is more like an old wooden sailing ship with canon onboard than it is a modern effective method of force projection. That battleship is a museum piece. The old wooden ship named the USS Constitution sits in Boston Harbor. It is a museum piece too. We don't need more of them.

The number of ships in the Navy is not really the metric to focus upon.

Frankly, right now, in today's world it would be much more effective to load up large cruise ships with third world refugees, especially Muslims, and land those on the shores of an enemy state. Then use the global media and UN to force those receiving countries to take in those incompatible people and feed them, house them, and be affected by their costs and cultural impact. Those incompatible migrant hordes, especially those who embrace the political and cultural doctrine of Islam, will weaken and destabilize any enemy from within. They are like a destructive bomb with a long fuse to explosion. Be certain, Islam will explode within any culture that is "non-believer". So, rather than build big gray ships, borrow the cruise liners from Carnival, load them up with Islamic refugees to land on the shores of anyplace, any country you want to destabilize. It is truly a thing of beauty if you seek to slowly destroy a country and civilization. What a great way to weaken and slowly destroy an enemy. You might even get a Noble Peace prize while you do it. That is being done to Europe now.

Europe could choose to take in the Middle East Christians and other sects that are being decimated by Islam. Europe could take in millions of the people of the Ukraine who are in a terrible war zone and who are Christian and would integrate

well into Western Europe. But that is not what is happening. Europe is loading up with the body of Islam. Those Islamic migrants bring a political and cultural doctrine and ideology that is in direct conflict with western culture. They are called to war against all "non-believers". Islam is a weapon delivered into countries that are under attack. How many Europeans realize they are under attack and recognize the weapon?

So, don't build big gray ships of war. They are expensive and their effects are transitory. Instead, fill-up the cruise liners with people who embrace the doctrine and ideology of Islam and land them on the shores of whatever country you want to bring low. Use the media and UN to cajole and shame the receiving country into accepting the body of Islam. It really is like the Europeans - and now the citizens in America - are inviting in cruise missiles that have long fuses. A cruise missile is going to do one thing very well when it realizes its purpose: destruction and mayhem. The body of Islam is going to do a similar thing as it manifests its purpose and calling. Islam is a political doctrine and ideology that is in direct conflict with western culture.

There is no separation of church and state in Islam. There is only Islam. There is no law above Islam; there is only Islam through Sharia. Islam does not embrace freedom of speech, freedom of association, or freedom of expression. You submit under the sword of Islam. The doctrine of Islam is submission to a beat-down of the human spirit. There is no law, no culture, and no political power above Islam. There is only Islam. Submit. The beat-down that is Islam is held together by threat, intimidation, murder and mayhem. That is Islam.

Islam in London today = [Islam in London](#) and [London Patrols](#)

Can you see this for what it is? The Globalist Elite are today using Islam as a weapon of conquest. They call it instrumentalizing Islam. This technique of war really is not that hard to understand. Many people in western countries will not allow themselves to see this for what it is... they are in a state of "willful ignorance".

The "cruise missiles" of massive Islamic immigration are being inserted into their living rooms and the people of Europe just docilely sit there, many saying how wonderful the missile is. You can imagine a good Monty Python skit to point out

this insanity. What a thing it is to listen to the US Iman, former President Obama tell the American people - the sheeple - how right this coming storm is.

Chapter 7 – Can Islam be Reformed

Many people either wonder if or ask the question can Islam can be reformed. They may know of a Muslim who seems really nice or they read about discussions that suggest there is a group of Muslims that are not violent and who resist calls to intimidation, threat, murder and mayhem. Can Islam be reformed? No, and here's why.

Islam is a complete ideology and doctrine. To deny the calling within the Koran and the other guiding texts of Islam is to fall outside of the calling of Islam. Islam itself is self-policing. The call to prayer and submission is five times a day every day. Islam strongly compels all members of the body to submission to Islam. For those who stray from the doctrine or ideology there is a strong self-correcting force within Islam to limit that and stop that. All members of the body of Islam play a role.

For most members of the body – the Ummah - it is enough to support and provide aid and comfort to the community and body of Islam. That aid and comfort provides the strength and energy for the body of Islam to act. Only a few are called to take up the gun, explosive or knife. They come from anywhere within the body of Islam. That is one of the most powerful features of Islam.

Islam is self-policing and ruthlessly self corrects. For any Muslim who tries to leave Islam the penalty is death. Muslims who stray will feel the hand of other members of the body to bring them back in line. Muslims will ruthlessly kill one another over such disputes of practice.

When any Muslim fails to follow the callings of Islam that failure becomes the basis for other Muslims to punish or kill the offending person or group. Islam is strongly self-policing. That self-policing structure is built into Islam. There is a call within Islam for brother to fight brother, father to fight son and son to fight father in furtherance of the calling of Islam. There is no way out. There is no effective method to moderate Islam. That ruthless self-policing and self-correcting structure is a strength of Islam as a doctrine.

Mohammed is the final prophet. There can be no later prophet whose words change Islam. To suggest a later prophet is heresy. There can be no reform.

The doctrine of Islam cannot be moderated. The doctrine of Islam protects itself from all such attempts. Islam self-polices and self-heals. It cannot be moderated.

All members of the body of Islam play a role to protect and strengthen Islam. There is no moderation. That is one of the powerful strengths of Islam.

Conclusion

Islam is a powerful doctrine and a powerful ideology. The members of the body of Islam are not confused by the calling of Islam. The members of the body who go forth into the world of non-Muslims to kill and subdue the non-Muslim are not radical or confused. The members of the body of Islam understand well the calling of Islam. The Muslim jihadist understands the doctrine perfectly.

There is no radical Islam. There is only Islam. The call to war is clear. The doctrine is clear. Your understanding of Islam should be clear as well. Without that clarity you will never understand what is happening in the world, or why acts of violence from Islam seem relentless and seem to come from any part of the body of Islam.

There is no radical Islam. There is only Islam. Do you understand this now?

As a non-Muslim your calling is to face Islam with a full understanding of exactly what it is and how it operates. Do not be deceived.

The greatest calling is to free the millions of people around the world who are enslaved by the barbaric cultural doctrine and political ideology called Islam. That struggle is noble and worthy of all. Be strong. Stand firm. Do your best. There are great and wonderful people of all races and ethnicities bowed under the sword of Islam. Work to free them.

Many people asked how could the German people of 1930's Germany not realize what National Socialism was and then act to oppose it. People condemn the German people of that time for lacking the courage to act in the face of obviously terrible doctrine and brutal political ideology. Think about your situation right now. Are you afraid? Are you afraid to say anything because you think you might be called names or might lose your job? Many people feel just that way. They are afraid to say anything. They want someone else to take care of this.

If you are one of those people who are afraid or fearful about the consequences of speaking-up you now know how the German people let National Socialism grow and develop in 1930's Germany. It is hard to stand up. It is hard to take action when something that is powerful and violent is developing. We all tend to hope someone else will take care of it for us, or we pretend it's not so bad. It is great when someone else acts to stop bad acts or bad doctrine. We all want someone else to be brave and courageous and to protect us. Sadly, that is not happening in many places around the world as Islam spreads.

The leaders of many countries, such as in Germany and Sweden in particular, are and have been betraying their people and cultures. They brought in millions of Islamic people with no effort to free those people from Islam or confront the clear danger of Islamic doctrine. Liberty and freedom need to be protected. Western culture needs to be protected and defended. That protection comes from you.

Watch This: [War Via Immigration](#)

You need to be clear in your understanding of Islam and how Islam spreads. You need to have the courage to say "No". In whatever way you can, you need to find that courage.

Afterword

Terrible Leadership

From a review of many sources quite openly available over the internet and from commentary openly viewable on YouTube it would appear the CIA and related paramilitary arms from the United States are absolute evil in the use of Islam in Syria in 2016 and beyond. There is a clear suggestion that Islamic State was created and funded by the USA and used oil transported from the ISIS held areas of Syria to Turkey that was then sold on international black markets to fund the murderous rampages of ISIS. Follow the money. ISIS is funded and supported by powerful groups. Sadly, the US is a part of that funding and support, hide it as some might try. There are those in the US leadership who wrap themselves in privilege and secrecy to hide their acts. That is a gross misuse of the powers given to government by the People. That misuse of power needs to be exposed and stopped.

Many observers have come to believe that the regime changing western powers who led attacks on Libya and then Syria are part of this globalist evil.

Watch this: [7 Planned Wars](#)

These globalist devils are unleashing the worst of Islam, ripping the heads off the Islamic states to unleash hell. From chaos the global Elite seem to imagine they can create a borderless New World Order.

The politically powerful and all their cronies in the United States and elsewhere are utterly despicable lapdogs to the very powerful and wealthy few who imagine themselves as leaders or gods of the borderless new world to come. First, they create the chaos and use that chaos as the excuse to strip people of liberty and freedom, ushering in this New World Order that they own and rule. You will have no choices; you will have owners who rule your lives. Your freedoms and liberties are dissolved way.

Watch This: [Carlin - The American Dream](#)

The New World Order is being brought to all people by the actions of the globalist Elite. First comes chaos, and then comes a new order with a loss of freedom and liberty for the People... a borderless New World Order. They - the globalist Elite - are the Aristocrats and privileged rulers in this new borderless world to come. The 95% of us - the sheeple - are the paupers, who will live in a neo-feudal state.

Islam is a perfect tool to create the chaos and destruction to bring about the borderless world ruled over by the powerful few. You must submit. Your destiny: enslavement and pauper-hood. For those of you in Europe and the USA, there is a shiny cruise missile now sitting in your living room in the form of Muslim migration. That will explode in the only way Islam can. Islam is a very powerful political ideology that has subdued and defeated many great peoples of all races and ethnicities. You are slated to be next. Tick Tock.
